

What a difference Progressive® makes.

“...It seemed like I was on a totally different horse.”

“Recently, our Progressive Nutrition dealer gave me a sample of your Kool Blue product. I started my mare on this and realized before even finishing the bucket that it was doing some good. I had taken my mare to a show prior to starting your Kool Blue product and what a wreck that turned out to be. I didn't even get her shown as everything seemed to bother her; her head was up, and we were “off to the races”. After being on Kool Blue for three weeks, my mare was not only unbothered by things at the show, but was very relaxed and comfortable. It seemed like I was on a totally different horse. I am so very pleased with the results that I am seeing and the fact that she appears bright eyed and alert, as well as very calm. Thanks for another great product!”
