

Aqua-Aide®

Helps replenish electrolyte losses for performance horses.

Aqua-Aide® supplement is designed to help replenish electrolyte losses associated with fatigue, dehydration, heat injury, muscle cramping, reduced gut function and exercise.

How do you know if your horse needs electrolytes? Does your horse sweat when exercised? Is your horse sweating when hauled? Electrolytes before, during and after exercise can delay the onset of fatigue and improve recovery time. With **Aqua-Aide®** supplement its simple, it can be top-dressed on feed or mixed into a water solution.

Features and Benefits

- Formulated for the demands of performance horses, helps improve recovery time
- Feeding directions specific for heat stress and work load
- Shown to improve water intake
- Feed as top-dress or mix with water
- Easy to measure and mix
- Convenient 15 lb. buckets
