

# Leg Aide™ Liquid

Helps promote normal tendon and joint growth and healthy leg development for foals and growing horses.

During periods of nutritional shortages and stages of rapid growth, foals and growing horses are susceptible to nutritional deficiencies that lead to abnormal tendon, joint and leg development.

## Features and Benefits

- Easy-to-use liquid for nursing foals and weanlings
- Fast acting and effective – a proven nutritional supplement for foals and growing horses
- Promotes healthy joint growth and leg development
- Provides over 1400 mg of Omega-3 fatty acids per 600 lbs dose
- Ultra concentrated for easy use
- Balanced blend of vitamins, trace minerals and major minerals essential for growing horses
- Sources of calcium and phosphorus to promote healthy bone growth and muscle function
- Chelated trace minerals for easy absorption to promote normal tendon and joint health
- Contains chelated calcium for increased absorption
- Omega-3 fatty acids from flaxseed oil
