

Rejuvenaide® Paste

Helps promote normal growth and healthy leg development for foals and growing horses.

Rejuvenaide® Paste is a supplement for foals and growing horses designed to help promote normal growth and healthy leg development.

Features and Benefit

- Ready-to-use — no additional mixing
- For use in growing horses over five days of age
- Can be administered if the horse is not consuming the recommended allowance of the appropriate feed
- Convenient 30 cc tube that contains a measuring application system
- Contains 100% chelated minerals for easy absorption
- Dose daily for consistent, great results

Feed Directions

After 5 days of age administer at the rate of 2 cc per 100 lb of body weight per day. Start feeding FOALS FIRST® - Starter & Creep as soon as the foal shows interest in eating. One lb of FOALS FIRST® - Starter & Creep contains the same amount of chelated trace minerals as 2 cc of Rejuvenaide® paste.

Introduce Progressive Nutrition's **FOALS FIRST® - Starter & Creep** as soon as the foal shows interest in eating. This usually occurs with-in the first two weeks of life. One pound of **FOALS FIRST® - Starter & Creep** contains the same amount of chelated trace minerals as 2cc of Rejuvenaide® paste.
