

Light Horse Growth Monitoring and Feeding Chart

To determine the correct number of PN units and the **OPTIMAL RANGE** of the selected Progressive Nutrition® Horse Feed:

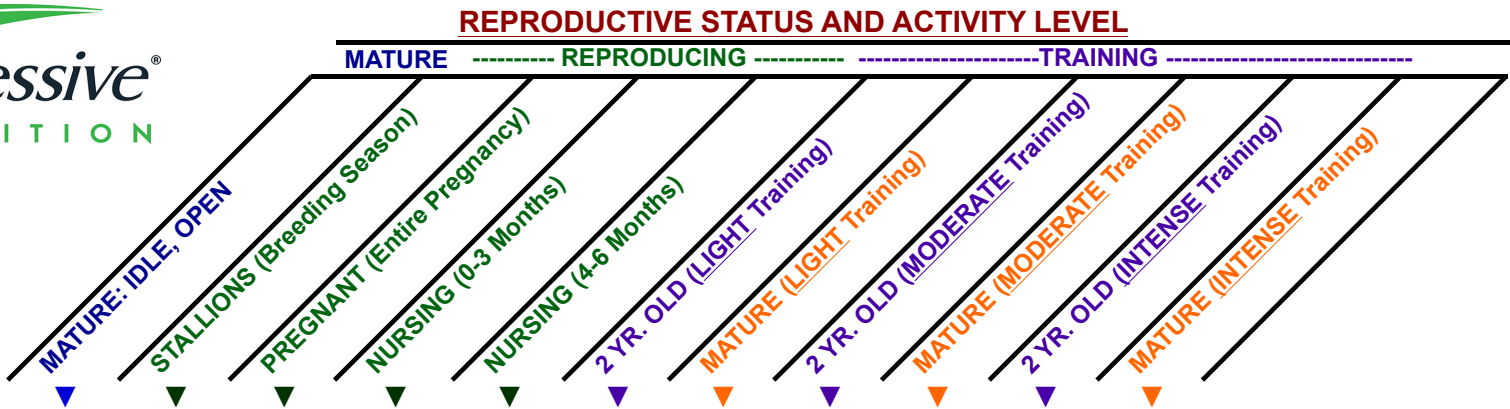

1. Determine the individual body weight of your horse.
2. Determine the age of your horse in months.

Follow the lines over and up and the numbers inside each rectangle (or box) where they cross, is your horse's Recommended Allowance (RA) and their Safe Upper Limit (SUL) to be fed per day.

The numbers inside each box correspond to the PN Units needed/day and the number of lbs/day of either ProAdvantage® Grass or ProAdvantage® Alfalfa Diet Balancers.

DAILY FEED PLANNER for REPRODUCING and PERFORMANCE HORSES
 HELPING YOU USE EQUINE SCIENCE & TECHNOLOGY TO MEET YOUR HORSES NUTRIENT NEEDS

CURRENT BODY WEIGHT IN POUNDS, WITH A BCS OF 5 to 6	660-880	▶ .75 - 1.50	1.00 - 1.75	1.50 - 2.25	3.00 - 3.75	2.50 - 3.25	1.50 - 2.25	1.00 - 1.75	2.25 - 3.00	1.50 - 2.25	2.50 - 3.25	2.25 - 3.00
	880-1100	▶ 1.00 - 2.00	1.50 - 2.50	2.00 - 3.00	4.00 - 5.00	3.25 - 4.25	2.00 - 3.00	1.50 - 2.50	2.75 - 3.75	2.00 - 3.00	3.25 - 4.25	2.77 - 3.75
	1100-1320	▶ 1.25 - 2.50	2.00 - 3.25	2.50 - 3.75	5.00 - 6.25	4.00 - 5.25	2.50 - 3.75	2.00 - 3.25	3.50 - 4.75	2.50 - 3.75	4.00 - 5.25	3.50 - 4.75
	1320-1540	▶ 1.50 - 3.00	2.50 - 4.00	3.00 - 4.50	6.00 - 7.50	4.50 - 6.00	3.00 - 4.50	2.50 - 4.00	4.00 - 5.50	3.00 - 4.50	4.50 - 6.00	4.00 - 5.50

To determine the correct number of PN "Units" and the **OPTIMAL RANGE** of the selected Progressive Nutrition® Horse Feed:

- 1). Determine individual body weight of your horse;
- 2). Determine their Reproductive Status or Activity Level; then follow the arrows; over and down, and where they cross is their **Recommended Allowance (RA)** and their **Safe Upper Limit (SUL)** to feed/day.

The numbers inside each box is the "**Optimal Range**" of PN "Units" to feed per day.
 The above chart is the pounds to feed per day of **Progressive Nutrition's® ProAdvantage® Grass or ProAdvantage® Alfalfa**. These pounds are what you need to feed per day to stay within your horse's "Optimal Range"
